EXPERIENCE

BlueKube Brands – Lead Web Developer

April 2021 – Present

Developed and managed large-scaled user-focused Shopify e-commerce applications to increase conversion rates.

A/B tested prototypes using Google Optimize and evaluated clickthrough data to increase website engagement

Analyzed website code and the console to troubleshoot bugs and fix website stress tests

Boreinc. Freelancing Services – Full-Stack Web Developer

April 2017 - Present

Built out high-functioning optimized web applications using the MERN stack, HTML, CSS, Javascript, and content managing systems such as WordPress and Shopify.

Translated tech jargon to clients to fully incorporate them into the design/developmental process so they could provide feedback and questions

Practiced WCAG guidelines to provide websites that were easily used and accessed by anyone no matter their ability

PROJECT EXPERIENCE

SilverCreek Soap Company

E-commerce Website

Collaborated with a local small business owner for the development of a full-fledged E-commerce website using HTML, CSS, Javascript, and MySql.

TrailBlazers Corner

Sports Blog Website

Solely developed a fully responsive sports blog website using the MERN stack, HTML, CSS, and different tools such as Node, and Git
